Professional Summary

Computer Science postgraduate with skills in Java, SQL, MySQL, React.js, and web development. Experienced in application development, database management, debugging, and problem-solving through projects and internship experience. Seeking opportunities in Software Development and IT roles.

Technical Skills

Programming Languages	Java, SQL, JavaScript
Web Technologies	HTML5, CSS3, React.js (Basic), Responsive Web Design
Database Technologies	MySQL, SQLite, Database Design, Database Management
Tools & Platforms	Git, GitHub, Postman, VS Code, MySQL Workbench, MS Office Suite
Soft Skills	Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability

Work Experience

Full Stack Developer Intern <i>VDart, Trichy</i>	<i>Dec 2025 – Jan 2026</i>
--	----------------------------

- Contributed to the development of a Smart Parking Slot Management System with database-backed functionality for real-time parking slot monitoring.
- Integrated backend APIs with frontend modules to manage and retrieve parking data efficiently from the database.
- Assisted in database-related operations, data validation, and troubleshooting to ensure accurate data flow across the application.
- Participated in debugging and performance improvement activities to enhance application reliability and responsiveness.

Software Developer Intern <i>HePTA Web Portal, Tiruchirappalli</i>	<i>Aug 2023 – Dec 2023</i>
--	----------------------------

- Developed and maintained database-driven web applications using PHP and MySQL.
- Designed and managed relational database structures to support AQAR documentation and institutional reporting processes.
- Created and optimized SQL queries for efficient data retrieval, storage, and reporting.
- Collaborated throughout the SDLC, including database design, testing, debugging, and deployment activities.

Projects

PlacePro – Smart Placement Portal	<i>HTML5, CSS3, Bootstrap, PHP, MySQL</i>
--	---

- Designed and developed a centralized web application managing campus recruitment, job applications, and placement records with role-based access for students, recruiters, and administrators.
- Integrated a MySQL relational database with a normalized schema, enabling scalable storage and efficient querying of placement data.

Air Gesture to Digital Text Converter	<i>Python, OpenCV, MediaPipe</i>
--	----------------------------------

- Built a real-time hand-tracking system using OpenCV and MediaPipe that converts air gestures into digital text with live computer vision processing.
- Enabled natural, contactless human-computer interaction, demonstrating applied knowledge of computer vision and gesture recognition algorithms.

Education

M.Sc. Computer Science	Bishop Heber College, Tiruchirappalli	CGPA: 7.9/10 <i>2024 – 2026</i>
B.Sc. Computer Science	Bishop Heber College, Tiruchirappalli	CGPA: 7.6/10 <i>2021 – 2024</i>

Certifications

- Oracle Cloud Infrastructure 2025 AI Foundations Associate — Oracle
- Java Certification — Systech, Trichy
- Java (Basic) and SQL (Basic) — HackerRank
- Introduction to MS Excel — SkillUp by Simplilearn

Achievements

- 3rd Place — Ideas to Model: Ideation Challenge 2025 — Recognized for innovative prototype development.
- Runner-Up — Heber Hackathon 2K25 — Built an AI-Based Smart Blind Stick using sensor integration and embedded systems.
